

## TAKE LAST STEP NECESSARY FOR MINE SHUTDOWN

### New Rules Will Call for All Workers to Go Out

(By the Associated Press)

ATLANTIC CITY, N. J., Aug. 24.—Anthracite mine workers representatives today took the last step necessary to shut down the mines September 1. The news came to them from Washington that Governor Pinchot of Pennsylvania with President Coolidge's support would seek a last word before the impending struggle in the anthracite region scale committees from the three union districts authorized by unanimous vote the issuance of "work suspension" orders and walked out of their meeting room to take the trains which tonight are carrying most of them to their homes.

Their officials, however, said that any request which Governor Pinchot might extend for further conference probably would be accepted.

In this view, members of the operators' policy committee which was still held in the city, though S. D. Warriner, its chairman left temporarily, also joined. The employers would refuse no request for discussion it was said in which there might be a prospect for settlement.

Philip Murray, vice president of the United Mine Workers, and Thomas Kennedy, C. J. Golden and Rinaldo Cappellini, presidents of the Anthracite districts met with the union scale committees and reported upon the fruitless negotiations.

There were 18 miners from the "pit" as prescribed by union law, delegates for their fellow workers, on hand to listen. John Lewis, president of the union, was confined to his bed all day by a slight cold. At the end of three hours of executive session the miners, most of them men of mature years, trooped silently away.

Writing Set of Rules  
"We are writing tonight a set of rules which will govern the suspension of work on the part of our members that automatically comes about September 1," Mr. Murray said. "It will be printed Sunday night or Monday morning and will be mailed out Tuesday from some point in the anthracite region in order to reach all of our locals by August 31."

"For the first time, the rules will also call for all of our members who are employed as firemen, pumpmen, engineers and maintenance men to cease work when the miners go out. These men have hitherto been left in service in order to keep the mines from flooding and caving in. The scale committee, however, authorized the international and district officials to complete any satisfactory arrangement with the operators if the operators desire to continue the employment of our members in such capacity which will have that result."

A. B. Jessup for the operators' policy committee, said that past relationship between the union and employers had set up precedents by which the maintenance men should be held to their tasks, regardless of suspension orders to the rank and file of miners. He indicated, however, that if the union was obdurate, some sort of special conference might be asked by the operators to make the issue clear. These assurances were vague enough to leave an opinion with some of those familiar with the situation that operators might be preparing to arrange for emergency crews of non-union pumpmen and others to take over the work.

Any such installation of emergency crews it was said, would constitute an indication that employers had prepared for a long and bitter struggle.

Insistent suggestion was made to the miners contingent today concerning the prospect of general strikes of bituminous miners during the progress of the expected anthracite suspension. International officers and all responsible spokesmen for the union carefully refrained from making any public statement that such outbreaks might be looked for.

## OFFICIALS ARE WATCHING FINAL AIRMAIL FLIGHT

On Result Will Depend Establishment of the Route

(By the Associated Press)

CHICAGO, Aug. 24.—Over the 885 miles of lighted airway between Cheyenne and Chicago, two mail planes sped tonight in the last of four trans-continental flights to test the feasibility of establishing day and night continuous flight across the continent for mail planes.

Six times during the week their predecessors have spanned the continent in a little more than a day, three times from east to west and three from west to east, and have thoroughly demonstrated the possibility of coast to coast mail service on a definite schedule in approximately 24 hours.

While postoffice officials have announced that the six flights have assured trans-continental mail service the last flight was being watched with interest because each of the preceding ones had clipped time from the former schedules.

The third flight ended today with the mail plane from San Francisco to New York making a new cross country record of 26 hours and 14 minutes elapsed time.

This flight clipped 36 minutes from the record set last May in a non-stop flight from New York to San Diego. Its companion plane winging its way from New York to San Francisco landed on the Pacific coast at 1:34 P. M., two hours and 41 minutes ahead of its schedule, clipping 11 minutes from the record made by the plane which landed yesterday.

When the flight is concluded tomorrow in San Francisco and New York the planes participating in the relay across the continent will have traveled approximately 24,000 miles, 8,000 of it at night over an airway lighted by signal lights miles apart.

## ART STUDENT STARTS ANOTHER DAMAGE SUIT

(By the Associated Press)

NEW YORK, Aug. 24.—Mrs. Theresa Lind, youthful art student who recently engaged courtship to bring suit for \$200,000 against her former instructor, A. Sterling Calder, sculptor because of an alleged exhibition of a nude figure having a composite likeness of her head after which her husband left her, today began suit in the supreme court for \$50,000 against the Vogue company, and Condore Nast, publisher of The Vogue, a fashion magazine.

Publication in February of a photograph of the sculptured figure, "The Last Day," the complaint declared, was "a contributing cause for her husband's separation and held her up to public ridicule and humiliation because of the undignified and objectionable posture," in which the statue was wrought.

While admitting "The Last Day" has the head likeness posed by her Mrs. Lind denies that she ever posed for the body of the figure "never authorized superimposing her head likeness on the posed body of another."

## NEW CHANCELLER GIVES STATEMENT ON REPARATIONS

### Stressemann Makes First Official Declaration on Friday

(By the Associated Press)

BERLIN, Aug. 24.—Dr. Gustave Stressemann, the new chancellor today delivered at a luncheon tendered him by industrial, financial and commercial leaders his first official declaration of his government's stand in the reparations controversy.

Beyond giving a slightly more precise formulation to Germany's previous offer to pledge an integral part of her industrial, commercial and financial organism as security for reparations payments, the chancellor's speech contributed no new elements to Germany's side of the issue. Without specifically mentioning passive resistance or the evacuation of the invaded areas, Mr. Stressemann nevertheless permitted the inference that the German government believed such tangible pawns as portions of her economic system were not too high a price to offer for the restoration of the German sovereignty.

This statement is viewed in political circles as merely paraphrasing his inaugural statement before the reichstag in which he made the complete rehabilitation of German official and private jurisdiction in the Ruhr and the Rhineland a condition for abandoning passive resistance. In his address today he opposed any attempt to make the Ruhr and the Rhineland objects of negotiation in any solution of the reparations tangle.

The speech in its entirety is viewed here as a temperate and conciliatory statement by the government. Political leaders see it as a material contribution to an attempt to create an atmosphere between Germany and the entente powers.

The fact that Chancellor Stressemann was permitted to unfold his program at a luncheon tendered him by "big business" is viewed as an indication that the industrialists and their allied interests are in full accord with the government's attitude on reparations and its program of radical taxation and financial measures.

## GOVERNMENT ACTION IS NOT EXPEDIENT

(By the Associated Press)

SPOKANE, Wash., Aug. 24.—While "the department of agriculture is digesting every plan that is offered for relief," in the hope that some method would afford a "helpful remedy" for the present situation of the wheat farmer "up to the present time congressional action has not seemed expedient," George B. Christian, secretary to President Coolidge, declares in a letter to J. Q. Adams, president of the Farmers' Union of Washington and Northern Idaho in response to appeal from a conference of wheat growers here last week asking a special session of congress.

The president, Mr. Christian's letter declares, shares with you a great solicitude for this important interest and a great sympathy for any part of it which may be temporarily, he trusts, in any distress. It is his earnest desire to afford every possible relief and listen to every possible suggestion.

"The most experienced legislators with whom he has consulted have not yet been able to offer any plan for legislative action which seems to be practical."

## World Not Ready Wilson Idealism

(By the Associated Press)

WILLIAMSTOWN, Mass., Aug. 24.—Asserting that the world was not yet ready for the idealism of Woodrow Wilson, the Earl Birkenhead former Lord Chancellor of England tonight declared that self interest alone should determine whether the United States should intervene in the affairs of a stricken Europe.

Speaking of the closing session of the institute of "politics of the world after the war," Lord Birkenhead quoted Jersemiah Bentham, the English philosopher and jurist to the effect that self interest was the necessary motive spring of human endeavor.

In deciding what constituted her best interests he continued, America must remember that great nations require a great world in which to develop their greatness and that commercial genius flourished only when the whole world flourished. He warned of the effect of restricted markets on manufacturing and agriculture and declared that if in a poverty stricken world America produced more than she could use herself, sooner or later she would experience the same conditions now afflicting Great Britain.

In emphasizing his assertion that self interest was the dominating motive in life Lord Birkenhead declared that the world would probably not survive if idealism were given a completely free rein; no nation in domestic conditions will ever become the knight errant of the world.

"President Wilson, indeed, came with a noble message of hope, but unhappily in the sequel hope proved to be his principal equipment. It is a fascinating speculation whether had he been given health and strength to pursue the campaign which he contemplated, his idealism and personal ability could have affected the forces of the world."

## DE VALERA MADE SECRET PEACE OFFER—CLAIMED

One of Terms Was Possession of Funds in America

(By the Associated Press)

LONDON, Aug. 24.—Eamonn DeValera, a fortnight before his arrest, made a secret peace offer to the Irish Free State government. It is asserted by the Dublin correspondent of the Daily Express, who attributes the information to a member of the Free State government. The substance of the offer, the correspondent says, was that if the government would put in DeValera's possession all the Irish funds in America, amounting to \$500,000 he would undertake to use them solely for constitutional agitation in Ireland and terminate immediately military activities throughout the country.

According to the correspondent, the government turned down the offer with derision, declaring it would make no terms with DeValera, whatever they were. The approach to the government is said to have been made thru the Free State Senator Andrew Jamieson who after receiving more persuasive messages from DeValera undertook what the correspondent describes as a dangerous pilgrimage to the Republican leader's retreat, previously obtaining from the government safe conduct and a pledge that no attempt would be made to locate the hiding place.

Letters, telegrams and telephone calls from a dozen states as well as locally poured in on the adjutant general Markham during the day congratulating him on his success in obtaining the conviction of the klanmen.

## EUROPEAN NATIONS WOULD NOT CONFER ON AIR WAR CRAFT

### Coolidge Does Not Believe They Would Talk Limitation

(By the Associated Press)

WASHINGTON, Aug. 24.—Practical difficulties in the way of a conference to bring about world limitation of aircraft building for war purposes are considered by President Coolidge to be even greater than they were at the time of the unsuccessful endeavor to obtain such a limitation during the Washington arms conference.

The president it was said today at the white house has not had an opportunity to consider in detail the suggestion for such a conference recently advanced by the American Legion. Even the most preliminary consideration, however, the president was represented as feeling brings up at once practical difficulties of an important nature.

The president is said to believe that it would be rather doubtful whether European nations, in view of the unsettled situation abroad would join in such a conference at the present time.

Mr. Coolidge also is understood to be of the opinion that conditions in Europe which prevented an agreement on aircraft limitation at the Washington conference still prevail to an extent that European powers could not be expected to have changed their attitude toward such a suggestion.

## PRISONERS FAILED IN JAIL ESCAPE

(By the Associated Press)

BLOOMINGTON, Ill., Aug. 24.—Three prisoners who are said to belong to a notorious gang of criminals in Chicago were intercepted on the roof of the McLean county jail here tonight after they had broken from their cells, and were about to drop from the roof by the aid of twisted blankets taken from their coats.

The prisoners' names are Murray Farnett, Constantine and Stanley Schourouiski of Chicago and Gary, Ind. They are charged with automobile thefts.

Sheriff Morrison discovered the plot and with the aid of a deputy dragged the prisoners back to their cells. The yard below had been surrounded by members of the city police force.

An unusually vicious lot of criminals is now incarcerated in the jail and a special guard has been kept on duty for this reason. It was during the rounds of this special guard and Sheriff Morrison that the cells were discovered empty and the escape foiled. A few nights ago the sheriff interrupted several members of the "Egan's Rats" who were in jail here, about to make a break for freedom after having dug a hole in the stone wall.

## SMALL PLEADS SQUARE DEAL FOR FARMER

(By the Associated Press)

PEORIA, Ill., Aug. 24.—Governor Small speaking tonight at a picnic of Ward Clubs said the farmer is entitled to a fair deal along with railroads and other great public utilities corporations.

"These corporations are guaranteed under our national laws, a fair return upon their investment," the governor said, "why not in all reason then the farmer?"

The governor said in our economic scheme of things the farmer is even more important to the country's well being than the utilities since he provides absolute necessities while the utilities provide only added comforts and conveniences.

## WHITE HOUSE DENIES RUMOR

Washington, Aug. 24.—Suggestions which appeared in some quarters after the conference yesterday between President Coolidge and Matthew C. Brush, president of the International Corporation and a former governor of the state of Ohio, that Mr. Brush might be under consideration for the chairmanship of the shipping board were declared today at the white house to be without foundation. The conference today was declared by a spokesman for the president to be largely a meeting between old friends with an incidental discussion of the shipping problem.

## GOVERNMENT VIEWS GERMAN SITUATION WITH APPREHENSION

Regard Crash in Central Europe as Inevitable

(By the Associated Press)

WASHINGTON, Aug. 24.—The internal situation in Germany notwithstanding recent indications of some improvement, is regarded in Washington with grave apprehension. Most American officials, for obvious reasons have refrained from discussing the question publicly but many members of the house and senate and others who have studied European conditions at first hand this summer agree privately that the outlook is disquieting.

In broadly representative diplomatic circles too, there is a pronounced and almost universal note of discouragement. Some representatives of countries not concerned directly with German reparations regard a crash in central Europe as inevitable.

In diplomatic circles a relaxation of the pressure in the Ruhr is not expected because of what is regarded as an inflexible public opinion in France and even in Germany said to preclude any marked change of policy on outstanding questions at issue.

Any such change was held to be impossible long before Premier Baldwin made his initial statement on reparations in the Commons in what has been regarded as an effort to save Central Europe from disaster.

In these circumstances it has been made clear since President Coolidge assumed office that there appears no course open to the Washington government with respect to Europe other than the one mapped out under the administration of President Harding.

The wisdom of that policy is regarded at both the white house and the state department as already confirmed by events. There is no doubt Washington officials want to do what they can to help but the very elements which constitute the greater danger signs abroad are regarded as increasing the peril of any effort toward mediation.

Just what form developments in Germany may take is regarded here as highly uncertain. In diplomatic circles at least a degree of danger is believed to hinge upon the food situation.

Although there is apparent in Washington a realization that Germany is confronted with the danger of a collapse into Bolshevism under the continued pressure it is felt that perhaps only a separation movement and it is pointed out that anything approaching complete dismemberment would serve to increase the social unrest and perhaps lead to communism. In this connection it is contended that the present population of Germany is about maximum possible under a highly organized industrial system and that any considerable reduction in industrial efficiency thru the settling up of a number of independent states would only intensify a social problem new regarded as acute.

## PINCHOT NAMED AS SPECIAL MEDIATOR

(By the Associated Press)

HARRISBURG, Pa., Aug. 24.—Governor Pinchot, named today by President Coolidge as special mediator in the controversy between anthracite miners and operators returned to Harrisburg tonight from Washington and immediately took up consideration of plans to bring about a settlement of the differences. ## WOULD INCREASE TENURE OF OFFICE FOR PRESIDENT

### Fess Would Have Six or Seven Years— No Re-Election

(By the Associated Press)

YELLOW SPRINGS, O., Aug. 24.—A constitutional change making the office tenure of the President of the United States six or seven years and forbids immediate re-election was advocated today by Simeon D. Fess, U. S. senator from Ohio in a formal statement.

Mr. Fess made the additional proposal that much of the detail work of the president be delegated to others by legislation.

"Doubtless early action will be taken by congress and the states would readily ratify the proposal when once made," Senator Fess statement said.

Mr. Fess said that "the sudden passing of President Harding as a martyr to public service calls popular attention to burdens of the office of the head of the nation."

"Steps must be taken to lessen the burdens of detail now carried by the president," the statement said.

"The situation is greatly aggravated by the eligibility to re-election. Not infrequently much of the energy of the head of an administration during the first term is expended in getting ready for re-election. It is not his choice but the case is made out for him by exigencies of the office and party responsibility."

### Recalls Early Days of Morgan County

Continued From Friday Morning.

PART II.

(By Hon. Milton Riggs, Winches-  
ter, Illinois.)

Time and the limit to your en-  
durance, and mine forbid even  
the mention of all the known  
names of those who may be pro-  
perly designated as pioneers,  
and who laid the foundation of  
civilization in Old Morgan. We  
must be contented with names of  
a few characteristic examples.

It is said, and I believe cor-  
rectly, that Seymour Kellogg and  
his brother Eliza are the first  
who came and actually settled in  
the domain of which I am speak-  
ing. They built their cabin in  
1819 east of where Jacksonville  
now stands. In that cabin Sey-  
mour Kellogg lived in the primi-  
tive manner of the day. It was  
truly a simple, but a useful, life.

Joseph Morton, before he was  
of age—it has been said at the  
age of 18 years—settled east of  
Jacksonville, and spent all the  
remainder of his life in Morgan  
county. He was a farmer, but  
being called on for public service  
did not refuse the call. He was  
twice elected to the lower house  
of the legislature and once to  
the senate of that body. He was

also elected to the constitutional  
convention of 1861, the work of  
which body was rejected by the  
people, just as the laborer work-  
ing of another constitutional con-  
vention was recently rejected by  
the voters of Illinois. In all the  
departments of life which he  
occupied, Joseph Morton was  
faithful, efficient, and useful. He  
left a personal record of which  
any one, and especially his fam-  
ily, might justly be proud.

Newton Cloud came to this part  
of the country four years  
after Old Morgan came into ex-  
istence and also remained a citi-  
zen of Old Morgan all his future  
life. He also was a farmer, but  
his character and ability attract-  
ed the attention of his fellow  
citizens, and he, like Hon. Joseph  
Morton, was called into the  
public service. He served four-  
teen years in the lower house of  
the legislature, four years in the  
state senate, making eighteen  
years service in the legislative  
branch of our state government.  
His first public service was in  
the lower house, to which he was  
elected in 1830, and his last ser-  
vice was in the house to which  
he was elected in 1870—there  
being forty years between his  
first call and his last call to pub-  
lic service. He was also a mem-  
ber of, and presided over, the  
constitutional convention of  
1847. In addition to farming  
and rendering public political  
service, he preached and inter-  
ested himself in the spiritual  
welfare of his neighbors. His is  
a life to be specially remembered,  
and the memory of his services  
should be properly preserved.

Your speaker had the honor to  
serve in the legislature when  
Hon. Newton Cloud served his  
last term, in 1871-1872. And, by  
the way, the 27th general as-  
sembly had the longest session,  
so Judge Moses says in his his-  
tory of Illinois, that the legisla-  
ture ever had up to the time of  
closing his history in 1889.

Newton Bateman, may not  
have been one of the earliest  
comers to Old Morgan, but he  
got here early and remained un-  
til he was called to Springfield  
to serve the state as its best  
State Superintendent of Public  
Instruction, barring none. He was  
five times elected to that office,  
and made a great superintendent.  
While residing in Jacksonville,  
where he made his home all the  
time from his coming till elected  
State Superintendent, he served  
as principal of the West  
District school, later known as  
the second ward school; served  
as school commissioner of Mor-  
gan county, and at one time had  
charge of Jacksonville Female  
Academy. He, probably, did  
more to elevate schools of the  
county than any other person.  
His name justly and most properly  
occupies a prominent place in  
the history above named.

Others might be mentioned,  
but the list of the worthy is so  
great that its length forbids en-  
tering all the known names in  
this address.

I believe the second earliest  
pioneer to settle within what be-  
came Old Morgan was Thomas  
Allen, who, in company with  
James Scott, John Scott, Alfred  
Miller, Adam Miller and Thomas  
Stevens came into the Sangamon  
country in the late fall, or early  
winter, of 1819. They were Ken-  
tuckians, and came first to a set-  
tlement in the American Bottom,  
where Thomas Allen, who was  
married, left his wife. They were  
on a prospecting expedition, look-  
ing for favorable places to lo-  
cate. Severe winter came on  
when they reached a point, now  
in Scott county, about three miles  
southwest of Lynnville. There  
they built a cabin in which they  
lived till spring, subsisting on  
game. In the spring Thomas  
Allen went back to "the settle-  
ment" and brought his wife to  
the cabin, where they made their  
home. James Scott, John Scott,  
Alfred Miller, Adam Miller and  
Thomas Stevens, a little later,  
"took claims" and made perma-  
nent homes in the new country.  
Allen's new home was on land  
later owned by William Gordon.  
It has been claimed this was the  
first white man's home estab-  
lished in the territory of Old  
Morgan.

From such information as I  
have been able to obtain I con-  
clude Thomas Beard was among  
the earliest settlers in what is  
now Cass county. He and Enoch  
C. March laid out Beardstown,  
which has grown into a prosper-  
ous city of several thousand peo-  
ple. Charles Robinson was also

an early comer to "these parts"  
and lived there many years.  
Murray McConnell, the first  
lawyer made his first appear-  
ance in what was to be Old Mor-  
gan in 1820. He was an able,  
indefatigable lawyer, but did not  
devote himself wholly to law  
practice. He dealt in land, held  
public office repeatedly, and in  
all positions was faithful and ef-  
ficient.

On November 17, 1823, he  
entered the northwest quarter of  
section five in township four-  
teen, north, range twelve west,  
which is a beautiful tract of land,  
and now in Scott county. He  
selected wisely, but soon—Octo-  
ber 28, 1825—he sold the largest  
portion of it to Scott Riggs, who  
occupied it with his family in  
1826, and thereafter lived a long  
life on it and an adjoining par-  
cel.

But McConnell was not the  
only lawyer of distinction in Old  
Morgan, before and since, the  
birth of its two municipal daugh-  
ters. There were John J. Hardin,  
who fell at Buena Vista; Judge  
Samuel D. Lockwood of the Su-  
preme Court; Judge William  
Thomas; James Berdan; David  
A. (Tubby) Smith; Isaac L.  
Morrison; Cyrus Epler, who  
served acceptably as Circuit  
Judge for twenty-four years, and  
others worthy of mention and  
not invidiously omitted. There  
is another to be mentioned,  
neither last nor least, who  
should be remembered—Richard  
Yates, the great war governor of  
Illinois, and later one of its able  
United States Senators. Pardon  
me now for personally connect-  
ing myself with my story. I re-  
member distinctly the first time  
I saw Richard Yates to know who  
he was—doubtless the first time  
I ever saw him. In 1856, when  
in my "teens," I attended an old-  
time political rally in Jackso-  
nville. A presidential campaign  
was in active and intensely part-  
isan progress. James Buchanan,  
a bachelor, was democratic can-  
didate; John C. Fremont, who  
was Senator Benton's son-in-law,  
was a candidate—the first repub-  
lican candidate for president. A  
part of this rally consisted of a  
parade—a "procession." In the  
parade, a man was riding a  
handsome and spirited white  
horse. Connected with Fremont,  
in some way I cannot explain,  
now, was a "wooly-horse" story,  
which, no doubt, suggested the  
wooly-horse in the parade. On  
inquiry I was told, and have  
never forgotten, that the rider  
was "Dick Yates," as he was then  
called.

I remember another incident  
of that rally. In the parade was  
a farm wagon filled with women,  
one of whom was holding aloft  
a banner with this inscription: "I  
never, in all my life, heard of a  
president without a wife"—of  
course, a sarcastic allusion to  
Buchanan's bachelorhood. An-  
other two-horse wagon in the  
parade was full of men, one of  
them holding up a banner in-  
scribed: "Clay Whigs and Jack-  
son Democrats," which will re-  
mind a few of you older people  
of the days when the great Whig  
party—the party of Clay and  
Webster—was disintegrating and  
antislavery democrats were  
sloughing off and the republican  
party was being formed.

But I have wandered from the  
intended line of remarks.  
Among the early settlers, in  
what is now Scott county were  
Alexander Wells, James Gilham,  
Alexander Bell, Alfred Mills, E.  
G. Miner, the Funks, the Peaks,  
the Leibs, Scott Riggs and many  
others, who contributed worthily  
and usefully to the beginnings  
of that portion of Old Morgan.

In the more than a century  
since pioneers began to come  
here, thousands and thousands  
have come upon the stage of ac-  
tion, contributed their part to  
the progress of development and  
have passed on, many of them,  
maybe most of them—to be for-  
gotten. It is well to recall the  
names of, at least, some of them,  
and their contribution to the be-  
ginning and onward march of  
civilization in Old Morgan.  
The beginnings of our wonder-  
ful free school system may be dis-  
covered in the days of the first  
pioneers and those who immedi-  
ately followed them. From the  
unhewn log school house to the  
two hundred thousand dollar  
community school and adding  
long way. But without the log  
school houses as a beginning,  
would we have the splendid, well  
equipped school houses of today?  
Let us not forget nor lightly re-  
gard the humble beginnings back  
in the days of the pioneers.

### GOV. SMALL MAKES ADDRESS AT PEORIA

Reiterates Principles of Platform  
Adopted at Kankakee—Propo-  
sition Food Producers Commis-  
sion

PEORIA, Ill., Aug. 24.—In his  
first public utterance since he an-  
nounced his candidacy for the  
nomination as the republican  
standard bearer at the coming  
April primaries, Governor Le-  
small, in an address here tonight,  
stepped squarely out upon the  
platform adopted at the Kanka-  
kee rally ten days ago. The  
governor was the principal speak-  
er at an annual republican picnic  
here.

The governor laid special em-  
phasis upon several points enu-  
merated in the platform adopted  
by his adherents at the Kankakee  
meeting here. He particularly  
stressed the article in that plat-  
form which calls for the crea-  
tion by the national government  
of a commission to relieve the  
present financial hardships of  
the farmer.

"The farmer, who produces the  
food of the world," said the gov-  
ernor, in part, "is, in my opinion  
and deep conviction, certainly en-  
titled to a fair deal along with  
the railroads and other great pub-  
lic utilities. These corporations are  
guaranteed, under our national  
laws, a fair return upon their in-  
vestment. Why not, in all reason  
then, the farmer? In our economic  
scheme of things the farmer is even  
more important to the country's well-  
being than are the utilities, since  
he provides absolute necessities,  
while they give us only added  
comforts and conveniences. The  
corporations are given protection  
on the theory that they are 'af-  
fected with the public interest.' So  
the Interstate Commerce Com-  
mission sees to it that they are  
allowed a reasonable return upon  
property and capital.

Forms Food Commission  
"Now I ask you, is not the  
production of food intimately af-  
fected with the public interest?"  
Is the owner and operator of a  
farm entitled to a fair and reason-  
able return for his labor and  
upon his investment? I most em-  
phatically believe that he is. I  
therefore am unequivocally in  
accord with that section of the  
republican platform adopted at  
Kankakee which urgently recom-  
mends that immediate steps be  
taken toward the creation of an  
interstate food producers' com-  
mission, with powers similar to  
those vested in the Interstate  
Commerce Commission. This  
commission should be empowered  
to fix and regulate the prices and  
distribution of farm products, to  
the end that the farmer be as-  
sured a reasonable return for his  
labors and money invested. The  
functions of such a commission  
should at the same time protect  
the consumer from being robbed  
by the food gambler and specu-  
lator."

The speaker touched briefly  
upon other provisions contained  
in the Kankakee declaration of  
principles, devoting the major  
percentage of his further remarks  
to reviewing the deeds of his  
present administration. He an-  
alyzed for his hearers the paved  
road building campaign, and  
pointed out that in this, as well  
as in other respects, he had faith-  
fully kept his 1920 campaign  
promises.

### Boils

HERE is a reason for every-  
thing that happens. Com-  
mon-sense kills misery. Common-  
sense also stops boils! S. S. S. is  
the common-sense remedy for  
boils, because it is built on rea-  
son. Scientific authorities admit its  
power! S. S. S. builds blood,  
power, it builds red-blood-cells.  
That is what makes fighting-blood.  
Fighting-blood destroys impuri-  
ties. It fights boils. It fights  
impurities! It fights skin eruptions!  
It always wins! Mr. V. D. Schaff,  
57 15th street, Washington, D. C.,  
writes:  
"I tried for years to get relief  
from a bad case of boils. Every-  
thing failed until I took S. S. S.  
I am now absolutely cured, and  
was S. S. S. that did it!"  
S. S. S. is sold at all good  
drug stores in two sizes. The  
larger size is more economical.

## H. R. RATHBONE IS WINCHESTER SPEAKER

Congressman-at-Large Made a Strong Address at Winchester Chautauqua Friday—Big Band to Give Concerts Today.

Winchester, Aug. 24.—The Friday chautauqua program attracted large audiences. The Crawford Adams Co. gave a concert program at 2:30 o'clock. The company includes Crawford Adams, violinist; Miss Sibyl Gould, accompanist, and Miss Helen Leshner, monologist and impersonator.

The address of the afternoon was delivered by Hon. Henry R. Rathbone, congressman-at-large. His address dwelt mainly with the proposed measures of relief for farmers. Mr. Rathbone is a member of the agricultural committee of the Chicago Association of Commerce and has devoted a great deal of study to this subject. He strongly advocated opening the way by legislative action for consolidation of railroads and for other economies which in his opinion would permit of substantial reduction of freight rates without crippling the carriers. In the evening the Crawford Adams Co. gave another good program. The final attraction of the day was Burgderfer, "apostle of fun," who appeared in a splendid series of stories, impersonations and character delineations. Saturday's program includes a concert at 3 o'clock by Bachman's "million dollar band," announced as an all-American overseas band.

## COLLEGE TUITION IN EARLY DAYS

What did it cost your great grandfather to go to college? When he begins to deplore the money you spend at school remember that he is probably mentally comparing the present age with a time when three dollars a month for room rent was considered high.

A document unearthed by workmen remodeling the home of Dr. John Hunt of Plain City, Ohio, gives some interesting sidelights on the period often designated by the older generation as "the good old days."

Dr. Hunt, who celebrated his hundredth anniversary last year, and is one of the oldest living college graduates in the country, entered Brown College in 1839. For the first three months he kept a close accounting of his expenses and sent his report to his father. It remained in a desk for eighty-four years before it was discovered by workmen who were not born at the time it was written. What changes came about during this time in the cost of living are indicated by the following items which Dr. Hunt lists: tuition, \$12; room rent, \$3; use of library, \$1; steward's salary, \$2; servant's hire, printing, etc., \$2; common bills, four weeks, \$6.40; public fuel, 75 cents and six cents for times. This last item was for absences, once from prayers and once from class.

This makes a grand total of \$27.21, or about as much as would see a student thru his first week in college today. What with laboratory and special fees, book bills, room and board and laundry expenses, he probably would not have enough left over to write his great grandfather to tell him what a wonderful age we live in.

## BURKE FINDS CHAMP EASY FOR RIGHT HAND

Hard Hitting Pittsburgher Gets to Jack with Firpo's Best Blow—Dempsey Fighting Mad at Finish

SARATOGA SPRINGS, N. Y., Aug. 24. (By the Associated Press.)—Jack Burke, the hard hitting Pittsburgh light heavyweight, uncovered a weakness in Jack Dempsey's defense today when the world's heavy-weight champion must correct before he faces Luis Angel Firpo, in their 15 round contest at the Polo Grounds September 14.

Burke, an accurate and stiff hitter found Dempsey an easy target for right hand blows, the

most effective punch in Firpo's collection. He nailed the champion with solid smashes with such speed that Dempsey was fighting mad at the finish of their two slugging rounds.

In the first Burke reached Dempsey's face and jaw four straight times, without a return. He also landed a one-two punch following this up with lefts and rights that knocked the champion's head gear to rakish angles. Dempsey landed only one effective blow in the first round but scored more frequently in the second. Burke left the ring bleeding from the mouth and nose as a result of stopping left hooks. Although suffering from a slight cold, Dempsey braved the danger of increasing the complaint by working out before about 400 spectators who paid an increased charge of \$1.10 to see the champion in action. The admission fee double the former price, will remain in effect for the balance of training.

## WAY CLEARED FOR HEAVYWEIGHT BOUT

NEAR YORK, Aug. 24.—The New York State Athletic Commission today cleared the way for the Luis Firpo-Jack Dempsey heavyweight title bout at the Polo Grounds, Sept. 14, when it granted licenses for the contest to the champion and his manager Jack Kearns.

Dempsey held state license No. 1 for some time after he won the heavyweight crown from Jess Willard but the term of that permit had expired and a renewal was necessary. Firpo already holds a state license.

Formal application by promoter Tex Rickard for a permit to stage the bout was submitted and copies of his contracts with Firpo and Dempsey filed, in accordance with regulations, but the commission, while making no announcement, was understood to have deferred final action on them until next week's meeting. Kearns announced today he had filled the gaps in Dempsey's training staff by signing three new sparring partners who will report at once at Saratoga Springs. They are Jack Renault, Canadian heavyweight; Jack McLaughlin, II, of Detroit, one of Firpo's knockout victims and Leo Gales of New York and Indian boxer.

ST. LOUIS, Aug. 24.—St. Louis made a clean sweep of the four game series with Boston by taking today's contest, 6 to 5. ## FIRPO STARTS TO TRAIN IN SECRECY

Argentine Fighter Put in Busy Day—Is Not at All Bothered by Coming Bout

ATLANTIC CITY, N. J., Aug. 24. (By the Associated Press.)—Luis Angel Firpo has started training in secrecy.

In addition to six rounds he boxed in public today at Atlantic Park, the dog racing plant on the outskirts of the city, the Argentine began work in his cottage in Chelsea. Inside the house he has rigged for him a 200 pound sand bag and a punching bag and upon these he lets loose his power in the morning before breakfast. The customary road jaunt, has been abandoned until later in the training period.

Horatio Lavalle, director-general of training and bolsterer of morale said that Firpo's legs were in excellent shape right now as a result of the training and fights he has had for the last two months.

The sparring engagement this afternoon consisted of two rounds each with Natalio Angel Pera, of Buenos Aires, "Dandy" Joe McCann, the Newark heavy-weight and Frank Koebele, of Brooklyn. The Joplin ghost otherwise Jeff Clark, will join the training camp tomorrow.

The punch catchers are to be employed next week, Senor Lavalle announced. All of Firpo's work during the next week and perhaps after that would be devoted to the development of the left hand and the inside right. The Argentine heavy-weight has all the confidence in the world in Lavalle and intends to adhere strictly to the program as laid out by him. Firpo is not at all bothered about the fight with Jack Dempsey in New York, Sept. 14. He appears to take that engagement as just another fight and firmly believes he will win.

## GIANTS WIN FROM LOSERS TIE GAME IN THE NINTH BY A SPIRITED RALLY—LAST END OF GAME PITCHERS' DUEL

NEW YORK, Aug. 24.—The New York Giants defeated St. Louis in a fourteen inning game here today 5 to 4. Snyder opened the fourteenth for the Giants with a single and Shinners, who ran for him, reached third when Doak fumbled Ryan's sacrifice bunt and Bancroft walked. Frisch hit an infield single, scoring Shinners. St. Louis tied the score with a spirited ninth inning rally when McQuillan was knocked out of the box. Smith hit a home run and Hornsby a triple in this inning. The game then became a twirling duel between Doak and Ryan. The score:

## WORK PROGRESSES ON NEW BEREA CHURCH

Building in Course of Construc-  
tion Will Occupy Historic Site  
—Original Church Record  
Made in 1851 Preserved.

Work on the new Berea church  
ten miles northeast of Jack-  
sonville is progressing in a satis-  
factory way. The building is  
of brick veneer construction and 32  
x 60 feet in general dimensions.  
The interior will be arranged in  
a way most convenient for the  
various needs of the present day  
church.

Berea church was organized  
Aug. 15, 1851, and the original  
record book has been preserved.  
The land on which the church is  
located was purchased from Joel  
Robinson and the building was  
erected by Joseph Black of Vir-  
ginia.

The first pastor was Rev. Char-  
les Rowe in 1852, and some of  
those who have succeeded him  
in the work were Rev. William R.  
Grant, Rev. Aquila Simms, Rev.  
Allen H. Rice and Rev. B. W.  
Haley.

While the years have brought  
many changes, the church now  
has an active membership and the  
work is being done. The  
membership has been presented  
in the building program by a  
committee including L. J. Ste-  
wart, W. W. Robinson, C. W.  
Swain and Hal Stewart.

The Old Record.  
Mrs. Andrew Harris long asso-  
ciated with the church, has re-  
cently copied for the Journal of  
the Illinois State Historical So-  
ciety the original record of the  
organization of the church, to-  
gether with the original list of  
members as follows:

Copied from the Original book,  
Berea Church of Christ, Morgan  
School house No. 2, August 15,  
1851.

We, the body of Christ agree  
to organize ourselves after the  
primitive practice to watch over  
one another and admonish each  
other, for our good, to take the  
scriptures of the old and new  
testaments for our rule of faith  
and practice.

That for practice the new is  
sufficient, but for faith of both  
are required. To call ourselves  
by the name given to Christians  
in the primitive age by the  
Apostles—definitely called Chris-  
tians—the followers of Christ.  
We agree to continue steadfastly  
in the Apostles doctrine, in fel-  
lowship, in breaking of bread  
and in prayers. Further as the  
primitive organizations were  
named according to locations so  
called they ought to be addressed or  
called upon by the traveling  
brethren, therefore we agree to  
be known as the Church of Christ  
on Indian Creek, meeting at  
Morgan Schoolhouse No. 2.  
Indian Creek Church, August  
15, 1852.

**NEW YORK, Aug. 24.**—Heavy  
selling of the oil shares based on  
the cut in the Ohio Oil dividend  
and the uncertainty regarding  
dividends of other companies im-  
parted a reactionary trend to to-  
day's stock market after an early  
period of moderate strength.  
Trading was largely a professional  
affair, the threatened suspen-  
sion of work by the Anthracite  
miners on September 1 and the  
unfavorable reparations develop-  
ments having a restraining effect  
on business particularly on part  
of small investors.

Marland closed 1½ lower.  
French francs improved four  
points to 5.63 cents. German  
mark declined slightly to 21½  
a million.

Active United States govern-  
ment bonds moved within nar-  
row limits, fluctuating being con-  
fined to 2-32 of a point.

# Outlines Reasons For U. S. Leadership

Ex-Gov. Brough Heard in Strong  
Address at Chautauqua—  
Names of Prominent Amer-  
icans Called to Mind

"America's Leadership of the World" was the topic of Charles H. Brough, former governor of Arkansas at the chautauqua yesterday afternoon.

The governor, who is a very eloquent and forceful speaker, at the beginning of his sterling American address, remarked on Jacksonville and Morgan county's remarkable history and referred to it as a builder of men of the nation. Among others he mentioned the names of Douglas, Bryan and Yates as men of strength and worth.

Mayor Edgar E. Crabtree was lauded by the speaker as one of the very few men in the United States who served for no reward other than the prosperity and happiness of their city. He mentioned that Mayor Crabtree and himself had been closely associated in Liberty Loan work during the war, when Mr. Crabtree was heading the St. Louis Liberty Loan district and he was governor of Arkansas.

After briefly touching on Jacksonville as an educational city the speaker began the discussion of "American World Leadership."

"Our constitution," said the governor, "was said by the great Gladstone to be the greatest document ever conceived by the mind of man. In it for the first time the government was clearly divided into three distinct sections, the legislative, executive and judicial, each acting as a check upon the other."

Reasons for Supremacy

In showing why the United States is the leading nation of the world today Mr. Brough called in a long procession the names of the leading writers, musicians, artists and business men, comparing them with men of the same stamp in foreign countries.

"There are only two nations in the world," he said, "who export more than they import, sell more than they buy. These nations are our own country and the Argentine Republic. Our goods go to all parts of the world. It was asserted in the Pall Mall Gazette, one of England's leading papers, that the Englishman is dependent on the United States for everything he eats, wears and is in any way associated. On rising he puts on shoes from St. Louis, shirt from Connecticut, etc., shaves with an American shaving soap, and a safety razor. He then goes down to breakfast and eats a steak from an Illinois farm, a breakfast food from Niagara Falls. Goes to his office and sits before a desk from Grand Rapids, and so it goes thru the remainder of the day."

"In America today there is half the wealth of the world. Our people are better fed and clothed, live better lives than those of any other nation."

"Another reason for America's leadership is her men. Such statesmen as Jefferson, Jackson and Roosevelt have contributed much to America's greatness. Each gave his own peculiar ability or trait to his country. To Jefferson we owe the Declaration of Independence and the Virginia resolutions, by which people were allowed to worship as they pleased. Roosevelt contributed much with his virile manhood and energy. I cannot leave the lists of the illustrious without mention of that great man who is now an invalid because of his sacrifices, a man who, when the true history of the World War is written will be given great honor, our former President, Woodrow Wilson. Warren Gamaliel Harding also sacrificed himself, one of the greatest

statesmen we have ever had, to his duty and his people.

The Farmers' Plight

"The farmers of the country are having a much harder time than is really known. According to Secretary Wallace the average farm family of five persons made last year only \$947.00. Each of these farmers had tied up in his land and equipment over \$17,000. What is wrong when a man can lay out that much money, work hard, and make so little return. I feel that the business men of the country must more completely understand their dependence on the farmer for prosperity before conditions will be righted."

The divorce evil is one of the greatest of the dangers confronting America. In this country last year there was one divorce for every 14 marriages. In Chicago the ratio was one to eight. The crime wave is another of the serious factors to be considered. In 1922 there was a murder to every 12,000 inhabitants. In England there was only one to every 356,000 people. Lack of law enforcement is the chief difficulty here. It is a principle of American law that 99 guilty men should be allowed to remain at large, than have one innocent man imprisoned.

"But America's greatness rests on a foundation that cannot be shaken, the Bible. We are a religious people and right will always triumph in this country over wrong in the long run. America's greatest reason for her supremacy is her fitness of spirit. We have never fought a war of aggrandizement and never will. We are a Christian nation and will always conduct ourselves as one, as we have in the past."

Two Fine Concert Programs Given

Two fine concerts were presented yesterday afternoon and evening by the Harp Ensemble company. The company is composed of five ladies, and includes three harps, a violin and a cello.

The music presented included solos on all instruments as well as duets, trios, and ensembles. The people present enjoyed the opportunity of hearing the harps as it is so seldom that one strays into town. The "March Triumphant" from Aida found particular favor with the local audience. The harps used by the artists yesterday ranged in price from \$1,200 to \$1,500. Some of the members of the company make a specialty in winter of playing in large city moving picture houses as a special act. The others are in lyceum work during the cold months.

The Rotary club held its weekly luncheon Friday at the chautauqua grounds. Luncheon was served in the dining tent by ladies of the Christian church. The address of the day was delivered by ex-Governor Brough of Arkansas, who is here to fill a chautauqua appointment.

At the business session President A. H. Dollear announced the final plans for the district conference which is to be held Monday and Tuesday at the Meredosa club house. Rotarian presidents and secretaries from all the clubs of the 41st district are expected to arrive in Jacksonville some time Sunday. They will have luncheon together at the Pacific hotel Sunday evening, when an address of welcome will be given by Mayor Crabtree. The response will be by James White of Champaign, who is governor of the district. The Elite Six will furnish a musical program.

The speaker said that the idea of service that Rotary emphasizes is what the country and the world needs. The address thruout was inspiring. Gov. Brough is to make another address from the chautauqua platform tomorrow.

Among guests introduced by President Dollear were Jake Mad of Pana, J. R. Menely, Franklin, Ind., and Dr. F. P. Norbury and George Adams of Jacksonville.

## LOCAL YOUNG MEN IN AUTO ACCIDENT

Car Turns Over Twice in Round Curve on Virginia Road—One Lad Badly Hurt—Rest Repair Car Enough to Make Trip Home.

Six local young men had a narrow escape from death and injury last night when the car in which they were riding turned over twice on the Virginia road, six miles north of here. William Andrews, a member of the party was badly injured, but the other five escaped unhurt. Andrews was brought to this city by people in another car and placed under the care of a physician. The extent of his injuries could not be learned.

The accident occurred as the car which was driven by Earl Hopper, was rounding a corner at a lively rate of speed. The boys were blinded by dust thrown by a car in front and failed to see the turn in time to slow down. The machine turned over twice, landing on its side. Most of the lads were pinned under the car, while some were thrown clear. Those in the party were Earl Hopper, William Andrews, Loren Alexander, Ray Sheppard, Harry McLamar and Clifford Worrall.

The auto was partially wrecked. Three fenders were bent, the radiator smashed, the windshield broken and the top torn off. However, with the aid of other travellers and neighboring farmers, the boys fixed up what was left of the car and drove it into Jacksonville.

## HARD ROAD BOOSTERS READY FOR GOVERNOR

Men From Surrounding Towns and City Hold Enthusiastic Meeting—Committee Will Complete Plans Tonight—Governor to Make Address.

An enthusiastic meeting of hard road boosters was held last night at the Chamber of Commerce to arrange for the visit of Governor Small and the official party to this city on next Wednesday. Road enthusiasts were present from Woodson, Waverly, Chapin, Litterberry and other surrounding towns. J. L. Henry presided during the meeting.

The assembly chose an executive committee to complete plans for Governor's day at the county fair, the committee to consist of Mayor E. E. Crabtree, R. Y. Rowe, president of the Chamber of Commerce, J. L. Henry, president of the County Fair association; C. S. Black president of the Morgan County Farm Bureau; W. E. Sullivan, president of the Morgan county Good Roads association and C. M. Strawn, president of the Automotive Dealers association. This group of men will meet at 8 o'clock this evening at the Chamber of Commerce to make further arrangements. City and county officials and state institution men were present at the meeting.

All present pledged their cars to be used by the delegation that will meet the Governor and his party on the hard road as they come to Jacksonville. The delegation will then proceed to the fair grounds, entering by the east gate. It has been decided to make an opening in the race track near this gate, so that the procession may enter the course and move to the grandstand. Here the Governor will enter the box prepared for him, and the cars will circle the track to their parking places. The governor will make his official address from the box in the grandstand, instead of from the judges stand, as previously arranged. Col. O. C. Smith and Grant Hughes will see to the distribution of advertising for the occasion.

## TWO MEN INJURED IN STREET FIGHT

Ed Landreth and O. R. Madison Stage Combat on West State Street—Madison Receives Severe Cut on Lip, Which Requires Several Stitches.

A fight in which the two participants were painfully injured occurred about 1:30 o'clock yesterday afternoon on West State street at the rear of the Ayers building. Ed Landreth and O. R. Madison, residing northwest of the city were the combatants. Both were arrested by Patrolman Earl Williams, who broke up the fight and took the men to the police station.

The fight is said to have started with an argument. The men exchanged blows and then clinched. Landreth struck his opponent repeatedly in the face, inflicting a bad cut on the lip and other injuries. Landreth received a cut on the head. A physician was summoned by police and took several stitches in Madison's lip. Both men were fined \$5 and costs, according to the city ordinance. The fight attracted a large crowd and caused considerable excitement on the street.

## TENT POLE FALLS AT FAIR GROUND

Considerable excitement was caused at the fair grounds yesterday afternoon when a steel pole supporting part of one of the large tents collapsed, carrying to the ground a mass of ropes and canvass. The tent was being erected at the time and workers were hauling the canvass to poles of the two steel supporting posts by means of block and tackle. The collapse of the pole caused men to scatter in all directions. Fortunately no one was injured, but the accident caused a long delay in the erection of the tents, while the ropes were being untangled.

Honey Fruit is Ehnies' week-end special. It's good.

## OFFICER MUST BE COUNTY RESIDENT

For some time past "Speck" Henderson of Jacksonville has been serving as special motorcycle officer in Cass county. ## SWINE EXHIBIT WILL EXCEED ALL RECORDS

Between 700 and 800 to be Entered at Fair—Four Big Tents Erected—Entries Close Tonight.

Feverish activity is evident now each day of the county fair ground. Four of the larger tents have been erected, two for stock and two show tents. The large tent for the swine department will be erected soon. It is a mammoth affair and will cost the fair association \$85 rental.

At the present rate of entries, the swine department will outstrip all previous records and there will be 700 to 800 hogs on exhibit. Entries of all kinds are pouring to headquarters at the Chamber of Commerce and a large force is kept busy listing exhibits. The entry lists will be closed tonight, and exhibitors are urged to have all entries in by that time.

The available space on the midway is almost exhausted, and late comers will have difficulty in securing room for concessions and exhibits. However, the fair association will endeavor to accommodate all who desire space on the grounds.

Only games of science and skill are to be allowed on the grounds, in accordance with rulings of the state agricultural department. No wheels or games of chance are to be permitted.

The stage for the musical revenue at night has been erected in front of the grandstand, and between this and the judges stand, a space has been enclosed to be used for dressing quarters. The governor's box has been completed, and on Wednesday it will be furnished with comfortable chairs for the official party.
